

4TH INTERNATIONAL CONFERENCE ON CHILD & ADOLESCENT MENTAL HEALTH POSTER PRODUCTION

Poster Panel Size

Panel Size: Height: 3 ft Width: 3 ft

Posters can be fixed to the board with pins

Poster Panel Allocation

There will be two poster sessions and you should already have been advised which session your poster is in. You may put up your poster on the morning of your allocated session when conference staff will be on hand to advise you of your panel number. Your poster should remain in place throughout the day. Please remove your poster at the end of the session. Any posters remaining after that time will be removed by the organisers, who accept no responsibility for loss or damage.

General Information

A poster should be self-contained and self-explanatory, allowing different viewers to proceed on their own while the author is free to supplement or discuss particular points raised in inquiry. Presentations should be kept simple and clear and a mixture of text and graphics is recommended. Remember that the time spent at each poster is determined by the viewer, not the author, as in the case of slide presentations

Layout

Materials should be mounted on coloured poster paper or board. Use matt finish rather than glossy paper. Arrange materials in columns rather than rows. It is easier for viewers to scan a poster by moving along it rather than by zig-zagging back and forth in front of it. An introduction should be placed at the upper left and a conclusion at the lower right.

Illustrations

Figures should be designed to be viewed from a distance and should use clear, visible graphics and large type. Each figure or table should have a heading of one or two lines. Additional essential information should be provided below in a legend. Photographs should have good contrast, sharp focus and if necessary an indication of scale.

Text

Minimize narrative. Use large type in short, separated paragraphs. Numbered or bulleted lists are effective ways to convey a series of points. Do not set entire paragraphs in uppercase (all capitals) or boldface type.

Titles and Fonts

Titles and captions should be short and easy to read, in a sans serif font for preference. Use large lettering as this means a number of people can read the poster from a distance without overcrowding. Remember to caption your poster with the abstract title, authors names and affiliations

**An example of suitable text size and font type
is illustrated below.**

**Headings should
be a minimum of
50 point size**

Whereas, 25 point size is fine for text
